A sepatorial Quarrel, [59 Associated Press.]

Washington, June 12.-The marble room of the Senate was almost the scene of a battle royal yesterday between Reagan of Texas and Stewart of N vada. The Nevada Senator had just met with a decided defeat in the fight he made on Major Powell, Chief of the General Survey, and consequently feels very tender. Reagan, on the contrary, has been a staunch champion of Powell. As Stewart passed Reagan, the latter began chaffing him about his defeat. Stewart Brave Sisters of Charity to took one or two samples of the Texan's handinage and then wearied of it, and angrily charged Reagan with being a mere tool and puppet of Powell. Reagan's wrath rose, and he retorted in good kind. Words ran high, until at last Stewart, beside himself with anger, charged Reagan with falsehood. Reagan jumped for Stewart, and a battle in which age and avoirdupois were the principal factors was only avoided by friends. Later in the day Stewart called on Reagan and apologized, but Reagan haughtily declined to speak to sideration of the silver bill he would him. A few hours later Senator

Severe Earthquake-The Mihilists. Paris, June 12.-Seven shocks of earthquake have occurred in the French department of Jura, inflicting great damage in the vicinity of the Jura mountains. The people are panic stricken, and since the worst of the shocks, have refused to re-enter their houses. Thousands of men, women and children are camped out in the open fields. No loss of life is reported,

but a large amount of property has been destroyed. General Sileceritoff, special agent of the Russian police is in Paris for the purpose of obtaining information concerning the Nihilists recently arrested here. He expressed himself confident that the prisoners were connected with the most atrocious and dangerous conspiracy against the life of the Czar and the institutions of the Russian Government that the Nihilists had yet organized. He had positive information that the French contingent of Nihilists were in collusion with those in Russia

Reported Indian Troubles.

St. PAUL, June 12.-General Ruger, Commander of the Department of Dakota, has advices from Tongue river, Custer and Koegh that the Indians are excited over a shortage of subsist ance, and that the settlers are alarmed, but he has no information of an uprising, and does not believe in the number of murders reported. The four companies of cavalry at Tongue river will be reinforced by three of infantry to-morrow. General Ruger says the military on the grounds can easily cope with the Indians.

BILLINGS (Mont.), June 13 -- It is eported that a man named Maicer was killed by the Indians at Tongue river. The Indians are killing cattle by the hundreds. The reports from Rosebud county are that three ranches were burned and other houses show

A posse of cowboys left Rosebud last evening to drive the Indians back on their reservation, regardless of the military.

HELENA (Mont.), June 12 .- The reports of Indian hostilities in Eastern Montana are largely sensational. Governor Toole said this afternoon that he had heard from the officer in command at Miles City, who didn't seem to share in the fears of trouble, and who said that there are soldiers enough to cope with any Indians con-templating mischief in Custer county.

Another resolution was adopted depecating the discrimination of ewe flocks west of the Mississippi by killing them for the market instead of holding them for the breeders.

The Dairymen Excited. Associated Press.

New York, June 12 .- The stringent measures adopted by the Secretary of Agriculture to stamp out pleuro-pneumonia in the cattle from the counties of Kings and Queens has created tremendous excitement and aroused the dairymen into an attitude of armed rebellion. An Unusual Interest.

The fact that the people of Nevada send away such large sums of money to buy ordinary necessaries of life strikes the people of older countries with surprise and awakens an interest the instant it is mentioned. Inquiries are coming in from every part of America asking what land can be bought for and what it will produce. Nevada needs more hand labor on her land, and it will come. Instead of its being devoted entirely to raising grass to feed stock, more skilled work should be put upon it and the productions varied. A class of settlers willing to come here and work from ten to eighty acres would change things universally. They need not sell everything for eash and spend the cash for food for their own tables. If they lived on the products of their own land, buying nothing but clothing, they would be more comfortable than nine-tenths of the human race. Population creates value. If there were no more people in Eugland than there are in Nevada, the land would all be devoted to sheep and cattle raising and would be worth a dollar and a quarter an acre. Every material interest in Nevada would be multiplied in value by five if the population was doubled, and if we use our resources as they do in Utah or New York, to say nothing of Holland or China, it will be done in a short time. There is no sense in Eureka people buying chickens and eggs from Mormon wagons that carry them three hundred miles, with well watered land in sight of town. Let us pray for a change.

CHAUNCEY DEPEW recently had occasion to say something to working-girls, and he proved himself equal to the occasion. Among other bits of good advice he gave them was the suggestion that they get lots of fun out of their work and enjoy life, as he does. That Mr. Depew enjoys life will be generally admitted, but his philosophy has never been subjected to the strain of getting fun out of work that only paid him three or four dollars a week. That is what the girls he talked about have to do. But for all that, the advice is good, and the average girl will not be slow to follow it. A disposition to look on the bright side of things has as much to do with enjoyment as the amount of money one has to spend. There are people with everything that money will buy at their feet who are not happy, and others who do not know the luxury of being a month ahead of the world who are. There are girls whose presence cheers and enlivens every one with whom they come in contact, and girls whose peevishness is more depressing than poverty. Every one cannot have a sunny disposition, but almost every one can throw a little brightness around them.

THE legislative opponents of the Louisiana Lettery bill which was introduced in the House last Tuesday claim that nothing but outand-out bribery can break their ranks and secure the passage of the bill. There is no question about the bribe money being ready. The only doubt is whether any of the opposing members are for sale. The stiff-backed members should be active in holding up those having any weakness of the spinal column.

EVIDENTLY the British Government does not like the idea of the United States insisting upon the protection of her seal fisheries in Behring Sea. The London Times is known to be the mouthpiece of Salisbury, and its utterances upon the question may be considered as semi-official. There is no question but the present administration means to adhere strictly to all its rights in Behring Sea acquired by purchase from Russia quite in contra-distinction to the weak and quibbling policy of the Cleveland adminstration. Furthermore, the United States is fully as well prepared for war as England, and the bluff of the "Thunderer" about her warships will not have the desired

THE following from the Elko Independent is fully endorsed by the GAZETTE: The reason why the people of Nevada are so unanimous in their desire for the appointment of R. R. Bigelow to the position of United States District Judge, is because he is admirably fitted for the position in character, legal attainments, honesty, integrity and all that is requisite for the high position to which he aspires.

THE London Standard thinks Blaine is heedless and intemperate in sending cruisers to guard Behring Sea. Blaine has shown himself equally conservative and vigorous in conducting our foreign relations, and has not gone into his Behring Sea policy without thinking it out beforehand. The British Government probably understands that if the Standard does

Entitled to the Best.

All are entitled to the best that their money will buy, so every family should have, at once, a bottle of the best family Remedy, Syrup of Figs, to cleanse the system when costive and bilious. For sale in 50c. and \$1 00 bottles by all leading druggists.

Strong Lauguage. J. B. Langhran, ex-mayor of North

Des Moins, Iowa, said recently: "I have just recovered from a severe attack of la grippe. I used Chamberain's Cough Remedy, and applied Chamberlain's Pain Balm to my breast. These remedies were just the thing in my case. My child had croup some years ago, and we used Chamberlain's Cough Remedy with perfect success, since then we have never been without these medicines in our house. I had a cousin who was a printer and was employed in a job office in this city, where they were printing circulars for Chamberlain. He had a deep-seated cold and a terrible cough, and while setting up the copy he made up his mind to buy a bottle. It cured his cough and that was the first time I ever knew anything breast. These remedies were just the was the first time I ever knew anything of Chamberlain's remedies. I have been strongly in their favor ever since. My own experience and that of my family convinces me that these reme-dies are the best in the world. That may be strong language, but that is what I think." For sale by Shoemaker & Co.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medici does not exist and it is guaranteed to do all hat is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood. Will drive Malaria from the system and prevent as well as cure all Malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price, 50 cts. and \$1 per bottle at Pinniger's drug store.

Is Consumption Incurable? Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Ab-scess of Lungs, and friends and physicians nounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third and able to oversee the work on my farm-It is the finest medicine ever made." Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of lung roubles; was given up by doctors; am now n best of health." Try it. Sample bottles free at Pinniger's drug store.

Somebody Tells Somebody. Dr. B. Hamlin, of Lemore, Cal., says a few dozen bottles of Chamberain's Cough Remedy which he sold there created such a demand for the remedy that he could not well do without it. Those who use it find it so much superior to any other remi-edy they have ever tried that they recommend it to their friends, and that is what makes it so popular. For sale by Shoemaker & Co.

CHINESE CUTTING AFFRAY.

A Man's Hand and Ear Nearly Amputated.

The Winnemucca Silver State of the 11th inst. says: .This morning shortly after 3 o'clock, as Officer Hadley was coming down town from the express train, he noticed four Chinamen carrying on a stretcher what appeared to be a corpse. He saw them enter the wash house near Keeler's Brewery, and, suspecting that good shape. something was wrong, he went in and inquired. He was informed that one of the washermen was drunk, but, thinking the answer evasive, he asked to see the man. He was fefused adto see the man. He was refused admission into the room, and the door being fastened, he broke it down. Lying on the bed he found Lee Toy, or "Ace-in-the-Hole," as he is generally called, covered with blood, several gashes having been cut in his head, and part of one of his ears having been cut off. His left hand was almost severed from the arm at the wrist, a severed from the arm at the wrist, a piece of muscle and skin holding it, but that wound Toy concealed from the officer until the arrival of Dr. Cartwright. The Chinese would not permit the amputation of the hand, but than 100 deaths occurring within the telegraphed to San Francisco for a past few weeks.

Chinese doctor.

Officer Hadley ascertained that the wounds had been inflicted by a Chinaman named Lee Goon, who cooked at the Fashion Chop House, and that he had used a large knife or hatchet. From what the officer could learn, he is of the opinion that the carver and the carved had been gambling and had a row; that Goon lay in wait, and, as Tov emerged from a water closet near the gambling house, he attacked him with a knife or hatchet, as the ground in front of the closet was soaked with blood. He found Goon concealed between two buildings and took him to jail. He had a pocket-knife, two blades of which were broken, and a purse containing about \$145 in gold on his parter.

MASONIC ELECTION.

List of Officers for the Ensuing

At yesterday's session of the M. W. Grand Lodge, F. and A. M., the following officers were elected for the ensuing Masonic year: John W. A Lumber Sale.

Lewis' saw-mill, between Sardine valley and Loyalton, has made a good start for the summer's run. Half a million feet of fine logs are in the yard and good improvements are being made, among them a log pond and a break for impounding sawdust. A fine edger has been put in and the mill overhauled. Ike Weston, well known

in Reno, is superintendent. Mr. Lewis has made a good sale of 2,000,000 feet to the Truckee Lumber Company, and has still 1,000,000 feet to deliver to O. Lonkey at Verdi. The steam wagons have not been started yet, but will do some work. It is doubtful if they can carry the lumber to Truckee, and it will probably be hauled to Verdi by steam wagon and shipped to Truckee by rail.

Invitation were sent to the various secret organizations in Reno to participate in the exercises.

Proposed Footrace.

The Carson Tribune says: A footrace for \$3,000 a side will take place at the Carson track on Sunday, June 22d. between Ben Rosenthal of Hawthorne and E. T. Dobbins, a California runner. C. E. Reed of Hawthorne backs Rosenthal, and John Furlong of this city is behind the other man. The stakes are the largest ever run for in this State, and considerable outside money will change hands.

While there is still a vast amount of snow in the mountains, it is mostly found in shaded canyons or on north hillsides. The warm weather in May took off the snow faster than it ever went before, and the roads are open almost everywhere. Around Sardine valley it is all gone, and the roads are dusty.

"A PAIR OF JACKS."

Opera House This Evening. Of this play, which was produced to a fine audience in Virginia last Tuesday evening, the Enterprise says: The similarity in appearance of the two Jacks gives rise to a succession of amusing blunders that keep the house in all degrees of hilarity, from a gentle snicker to a loud laugh. Opportunity is given for a variety performance of excellent grade by the arrangement of the dialogue. There are several good singers and dancers in the company, who were obliged to come out repeatedly in answer to vociferous cries for more. AN OPEN ISSUE.

Rube Burrows vs. The St. Louis, Arkansas & Texas Railroad. The San Francisco Bulletin says: The robbery of the train on the St. Louis, Arkansas & Texas Railway last Tuesday night, is attributed to the desire of Rube Burrows, the notorious

outlaw, to get even for the company's attempts to secure his arrest, as well as to add something to his pile. Since this thing has come fairly down to an issue between the company and the law on one side and Rube Burrows on the other, Mr. Burrows should be taught beyond any question that he is in the minority. He has had a long run, and it is time for a turn in the It takes railway companies a long time to reach the point of provid-ing adequate protection for their trains.

PRACTICAL TESTS. An Astonishing Offer-Some of the Replies.

The San Francisco papers of recent date ontained the following offer:— "As an evidence of the ability of Joy's Vegetable Sarsaparilla to prevent sick headaches, we will give to the first twelve responsible persons who will apply at our office a bottle free if they will agree that after they have been cured that they will admit the fact over their signatures."

This offer so startingly asserted the offer This offer so startlingly asserted the effi-

ciency of the remedy that many accepted, and the letters of the parties, nearly all of whom responded, are probably the most convincing attestations that any remedy ever received. . The following is a sample of those received:

I have been subject to billous headaches and constipation for several years past; in fact, have been compelled to take a physic every other night or else I would have a headache and dull, mean feeling. I have taken that bottle of Joy's Vegetable Sarsaparilla, and have derived great benefit from it, and intend continuing it. After my own experience I can heartily advise those troabled with billousness and constipation to try it. Yours, CHAS. E. ELKINGTON, 125 Locust Avenue, San Francisco.

FRAGMENTS FOR FARMERS.

THE farm may not yield big profits. but is there any other calling so sure to give a man a living?

A WASH of fresh buttermilk is said to kill lice on hogs. The milk needs to be well rubbed into the bristles. PREPARE your ground well before planting, cultivate well, and barring accident, the harvest will not disappoint

THE scrub animal has a pedigree which by adverse circumstances has a downward instead of an upward tendency.

ALTERNATE freezing and thawing throws the plants up. The roller should be used over the field when the ground is dry enough to permit of so doing. GIVE your farm credit for furnishing

you a home rent-free and for a thousand and one necessaries and luxuries which you would have to pay each for in a city. Ir the plow can not get sufficiently close to the trunks of trees to turn over the sod, chop around the trees with the hoe. The orchard land should be clean if insects are to be avoided.

A now of raspberries along the line of a field, or as a dividing line, instead of a fence, will give a plentiful supply. and can be easily cultivated, but such a fence will not turn stock.

WHEN planting corn bear in mind that the variety known to be well adapted to your soil and climate is better than any new variety until you give the new variety a trial on a small plat. A spirited horse may soon be made slow and spiritless by constant nagging. twitching the lines, peevish urging and

ful drivers invent and practice. THE value of the corn crop does not depend upon its grain only. The leaves and stalks are valuable, and no portion of the crop need be lost. As a fodder-

many other wearing processes that fret-

producing plant corn has no equal. ONE element only may be required to form a complete fertilizer in the soil. The soil may contain all that it requires with the exception of some substance that may be supplied at a small cost, and which may enable it to produce large crops.

Much is gained by planting beet-seed very early. It is a crop that requires plenty of time to become well estab-lished before warm weather and drouth Though requiring attention at first, the beet crop is easily cultivated after it gets well under way.

EARLY varieties will not produce early crops unless the ground is rich. Every thing that can be done to force the growth should be considered, and, as soon as the early crops are harvested. the ground should be spaded and something else planted for a later supply.

NEVER grow trees of different kinds together until satisfied that one does not injure the other, as is frequently the case when plums are grown near peaches, thus inducing the curculio to sometimes attack the latter. A single wild cherry tree near an apple tree will provide a harboring place for caterpillars, which finally injure the apple

orchard. WHEN trees are pruned in winter considerable time must elapse before the wounds made begin to heal over. During this time the combined action of the frost and sun are injurious to the newly-cut and exposed wood and bark. and it will take a longer time to heal over than if the wound was made at the time when the tree was beginning to make new growth.

An excellent mode of growing early tomatoes, egg-plants, etc., is to scoop out a potato or turnip and fill the hollow with rich earth. Have only one plant to each potato. When the plant is of the desired size, plant the potato (earth and young plant), and no check will be given the growth, as the decay of the potato will assist in providing food for the plant. Where turnips can be had, they should be preferred to potatoes. Egg-shells have also been used for the same purpose with success.

TRANSPIRING ABROAD.

THE five elevators in the Eiffel tower made a profit of \$1,200,000 during the French exposition.

THE Watkin tower, which will be erected in London and overtop the Eiffel tower by 335 feet, is to have six legs instead of four. It will cost about \$1,200,

Since the first of January the French Government has the exclusive monopoly of the manufacture of matches within its jurisdiction. It has established seven factories, in which it employs 1,700 workmen.

THE telegraph postal card is a great convenience in Paris. Open cards of this kind are delivered anywhere in Paris within an hour after they are mailed, for six cents; closed ones, giving as much room as an ordinary letter, for ten cents.

A FRENCH girl stole seven different poems from Whittier's published efforts and had them printed in Paris papers and magazines as her own, and even when an American' showed up the steal she boldly claimed that Whittier stole from her.

THE Czar of Russia has ordered that all clothes made for himself and family shall be of Russian material and made by Russian hands. His wife is much annoyed at this decree. Her Majesty's best dresses have always come direct from Paris.

It is alleged that the falsification of English coins by clipping and counterfersing has gone to a greater extent during the last few years than for a long time before, and that such things have got to such a pass that it is hardly safe to

accept coins at all. A CONFERENCE held in Berlin has decided that in Germany children shall not be employed under twelve years of age, and then only for six hours a day up to tourteen. Women and children not to be employed in mines; and working Sunday is to be prohibited for wo-

men and children. The attempt to start a Robert Elsmer religion in London has been a partial fallure. It is much easier to make such s regative creed a success in a novel, where disagreeable facts can be ignored, than in real life. THE widow of a merchant and her daughter arrived at the Russian town of Orel and put up at a hotel, registering as follows: "Merchant widow from Dmitrowsk, accompanied by her unmar-ried daughter, Jasha, 19 years of age, 17,000 rubles dowry, of fair complexion, with light hair and blue eyes, turned nose, dimpled cheeks. No other bodily defects or special marks."

THE Queen, having been appointed some time ago honorary colonel of the Prussian Guards, has had a uniform made for ber at Berlin, which she will wear on meeting the German Emperor at Darmstadt. The distinctive feature of the uniform is a lady's jacket made after the style of that worn by the Prussian dragoons. It is of blue cloth. with red collar, gold stripes and mono-

Parisians were lately treated to a rare effect of mirage. The Eiffel tower was seen surmounted by an inverted image of itself, vertical in the heavens and looking like a duplicate continuation of the real structure. The base of one image lost itself in the upper mist, while behind the tower was a low cloud which gleamed like silver. The sun was shining across the haze to the left of the tower and contributed an additional effect of light and shadow.

PERSONS AND POINTERS.

FERDINAND DE LESSEPS, although eighty-five years of age, still retains his youthful spirits. His handwriting is firm and he is very proud of his vigor. IT is rumored that Chauncey M. De-

pew talks so much when he goes out to dinner that he often returns home hungry and indulges in the luxury of "a cold bite."

PRINCE BISMARCK intends to devote the remainder of his days to making himself comfortable. He has dismissed his physician and intends hereafter to smoke as much as he pleases and to drink what he likes. JOHN COLLINS LEE, a member of the

life-saving crew at Atlantic City, is a member of the old Kentucky Lee family, and is worth \$2,000,000. He is not in the best health, and it is his whim to live in his present position. Dr. KNORR, of Germany, the discov-

erer of antipyrine, the great grip remedy, is reported to have acquired more than \$1,000,000 by the winter's epidemic. The medicine sells at \$1.40 per ounce, and he gets a royalty of sixty cents on every ounce sold. THREE descendants, one son and two

daughters, of De Quincy, the English author, are now living. The son is Paul Frederick De Quincey, Sergeantat-Arms to the New Zealand Parliament, and at one time Brigade Major of the English army in India. MR. MACDONALD, one of the Irish

members of the House of Commons, is totally blind. Through the devotion of his wife he is also one of the most prompt in attending to his duties. She akes him regularly to and from the House, where her figure has become as familiar as his own.

PERHAPS the most inordinate smoker. in the United States is Thomas A. Edison, who also believes that chewing tobacco is a good stimulant for any one engaged in laborious brain work. He is rarely seen without a cigar in his mouth, and he has learned the art of chewing and smoking simultaneously.

An official stenographer of the German Imperial Parliament has calculated the exact rapidity of speech of some of the most celebrated German statesmen. Rickert, a leader of the free trade Independents, he says, talks in a minute 158 words: Count Herbert Bismarck, 144: Singer, the Socialist, 121; Bamberger, the best-known bimetallist among the Independents, 129; Stumm, the coal baron, 148.

which he annually publishes. THE desire of London society to honor Henry M. Stanley has taken shape just now in a "Stanley Exhibition." It is devoted entirely to Africa and African products, among the exhibits being relics of Livingstone and other prominent African explorers, with books, maps, etc., illustrative of their accomplishments. In other departments ar shown the result of missionary work and the efforts to suppress the slave-trade.

The following Resolutions were nanimously adopted:

Resolved, That this committee re-affirms the State and National Repub-lican platform for 1888, including the declaration that "the Republican part is in favor of the use of both gold and silver as money" and that is, "con-demns all efforts to demonetize silver."

Resolved, That the persistent neglect of Secretary Windom to increase the coinage of silver to the maximum of four million dollars per month, coupled with his attempt to influence coupled with his attempt to influence Congressional legislation so as to perpetuate silver demonetization, is a shameless violation of the silver plank of the National Republican platform, an attack on the rights and interests of the miners, farmers and workers of the land, and an act of party perificity that should call for his retrement. that should call for his retirement from the councils of an administration which is pledged to help and not hin-

der the demonetization of silver.

Resolved, That the Republican coinage of both gold and silver; that it holds to this principle as a tenet of party faith and a test of party alleglance; that it will permit of no abandonment or modification of this doctrine; that let whosoever wall prove recreant to the principal of bimetallism it will remain steadfast thereto, and that it invites all voters in Nevada who favor the repeal of the iniquitous interlineated law of 1873 by which silver was demonstized, and who desire the establishment of free and unlimited coinage as the law of the United States of America, to join in electing delegates to a Republicau
